Postal Address	47, Rodney Street Liverpool, L1 9EW
Website	www.traumareports.co.uk
Consultation Sites	Liverpool & Manchester, monthly in Birmingham and Hull

Medico-legal Experience

I have been in medicolegal practice from 2002, with increasing focus on providing reports on complex fractures (upper and lower limbs), seriously injured patients, and those with multiple fractures. My reports are illustrated, and with accompanying photographs if necessary, and are fully referenced to the orthopaedic literature where appropriate.

I hold a post-graduate diploma with commendation in Medical Law. I maintain annual medicolegal CPD using accredited learning and reflection from reading judgments.

Personal Injury (about 150 reports a year)

Specialist Interest:	Complex fractures (upper and lower limb), multiple fractures, open fractures, compartment syndrome, amputations, fractures treated with external fixation, treatment of fracture complications
Court Appearances:	2011, 2016, 2018 (called x 2, settled in Court), 2021 (due x2)

Clinical Negligence (about 15 reports a year)

Area of expertise:	Complications of fractures and treatment, such as amputation, compartment syndrome, malunion, nonunion. Limb Reconstruction Surgery - Osteomyelitis, limb lengthening, deformity correction.
Court Appearances:	called on many occasions but settled before date.

Clinical Experience

I have been a full-time Consultant in Orthopaedic Trauma and Limb Reconstruction from 2002.

I treat the generality of orthopaedic trauma, and my specific area of trauma expertise is in treating complex fractures of both upper and lower limbs, multiply injured patients, open fractures, and the use of external fixation devices for severe fractures.

About half of my elective practice is in the treatment of complications of fractures in both upper and lower limbs - nonunion, malunion, infection, joint stiffness and contractures. The other half of my elective expertise is in limb lengthening, the treatment of limb deformities, and ankle deformities, and in osteomyelitis surgery of both upper and lower limbs.

The nature of my practice allows me to see patients for long-term follow up after trauma.

I am an Examiner Assessor for the Intercollegiate Surgical Board, and an Examiner for the International Surgical Board. I was previously Training Programme Director, member of the Specialist Advisory Council, and part of Council of the British Limb Reconstruction Society.

A full list of my publications can be found [here](#). My full CV is available on request.

Terms of Engagement and Timeframes

I prefer paperless communication. My approximate turnaround times are:

Personal Injury Reports and Condition and Prognosis Reports: about 20 working days if all records provided prior to appointment - an email regarding any further records required to complete my report is sent within 5 working days after the medicolegal consultation.

Breach of Duty and Causation reports: 30 working days after receipt of all records

Supplementary Reports, Correspondence, CPR Part 35 responses: 15 working days
